No need to apologize; I appreciate the nudge. Sorry to hold things up.

I think we can and should get this out quickly. I have a few questions/suggestions to check in on, which I will plan to do first thing Wednesday.

Did we put this in the STR (CMS) system?

Dan, we drafted this response to ODEQ's 401 response letter for our dam permits. They provided a "precautionary objection" (this is not a response option we are familiar with) and also asked us to withdraw our 401 request. We are just acknowledging receipt, recognize there is uncertainty, and leaving our options open. We think we may request another 401 review after we public notice when the permit conditions are more certain. OR sent this letter to tribes and others. Yakima already asked us about our response.. Wanted you to be aware. If this looks ok to you let me know and I will send it out, or we can discuss in the office. thanks

Here's the revised 401(a)(2) response letter. I hope everyone has a well-needed break tomorrow. I'm seeing Dru!
